VILLAGE'S PROFILE

Source: Head of Abang District

Tista village is located at Abang District of Karangasem Regency of Bali, which is about 82 km North-East of U Paasha Seminyak. When Gelgel Kingdom ruled in eastern part of Bali, there were 4 villages next to the Lempuyang hill named: Got Tirta, Purwayu, Jumetra, and Garbawana. Each village has its own Bale Agung and Kahyangan Tiga with wide autonomy scale as well.

Got Tirta's name develops and changed become Tista, the year of change is uncertain, most likely for easier pronunciation. In the Tista Village, there are sacred objects or commonly called by Peturunan: Meru Batu and Selonding.

Furthermore the King of Karangasem united some villages: Tista, Purwayu, Jumetra (Ngis) and Garbawana (Basangalas) became Perbekelan Tista Village. Along with the development and the population growth Tista Village was divided into 2 (two) villages, which are: Tista Village that consist of 6 (six) Banjar (Br. Tista Gede, Br. Tista Pasek, Br. Central Tista, Br. Ancut, Br. Magetelu, and Br. Batumadeg). & Tribuana Village as expansion of the village and consist of 5 Banjar (Br. Crying Kaler, Br. Crying Kelod, Br. Purwayu, Br. Basangalas Kawan, and Br. Basangalas Kangin).

Cow farm

Most of the populations have Cow farm that used to help them when work in the field or for sale as well.

Kitchen Tools

Kitchen tools used are old fashioned and "rotten", made of wood and stones arranged in such way to create a stove.

QUESTIONNAIRE OF VILLAGE'S DATA

General Village Description

Tista Village located in the Abang District of Karangasem Regency and has 690,490 hectares area in total

SCHOOL DROP - OUT

There are 5 persons out of school due to insufficient financial reason (2 male and 3 female), age between 12-15 years.

Village Mission

Based on the vision of Development of Tista Village as explained above, there are 5 (five) MISSIONS DEVELOPMENT 2010-2014 appointed:

1. Improving and increasing the facilities and infrastructure needed to enhance the human resources qualities through education and training.
2. Coordinate with the agricultural instructor to improve the agricultural output.
3. Increasing the agricultural business cycle.
4. Improving and managing village Revenue (PAD)
5. Achieving good and health governance through the implementation of regional autonomy

Five missions (Principal Agenda) of Tista Village 2010-2014 as above, furthermore will be implemented into development programs to be achieved within next 5 years.

The Village Potential

TOTAL POPULATION OF 273 PERSON

44%

121 are male with the occupations as farmer, breeder, carpenter, carver and unskilled labor.

56%

154 are female with the occupations as artisan and small trader.

Village Vision

"To become an independent village by building and creating adequate facilities and infrastructure in all fields, focusing on agriculture"

Current:

1. Over the years Tista Village holds the title as "red areas" or poor category. A title that is an irony, where actually the village has sufficient natural resources but the concern, however it needs more support from the government or outside party.
2. The occupation and subsistence of the populations in general are in agricultural as farmers and breeder in small scale.

DONATION DETAILS:

U Paasha Seminyak Hotel, through its corporate social responsibility known as U Make a Difference (UMD) has approached the village where the UMD committee did a thorough research on the support we can extend with optimum impact, short and long term. Below is the summary of areas we plan as our donation:

A. BASIC NEEDS – WATER SUPPLY

The village is located in a valley and dependent on natural water source, which is located up in the higher ground (hill). Therefore, water flow is on gravitational and this has some serious challenges like:

1. The water tank is not sufficient in capacity
2. The pipe too small to cope to handle the required volume
3. The distribution is not dependable – one 1 pump is available (deep well) not working properly.

- Water tank 2200 liter
- Submersible Pump Machine 500 meter
- Pipe 1,5 dim 600 meter - 150 pcs
- Shock (pipe 1,5 dim)
- Knee (pipe 1,5 dim)
- Roof water tank control
- Saw - 10 pcs
- WLC (Groundtank control)
- Pipe Glue
- Cable - 600 meter
- Water barel - 130 ltr - 110 pcs

Current Water Instalation - Desa Tista, Br. Ancut, Karangasem - Bali

- NB:
1. Current water tank used is 1100 ltr capacity
 2. Pipe along 500 mtr used to distributed water from the water tank 1100 ltr to the ground tank 5000 ltr still use 3/4" pipe.
 3. Water distribution from the water tank 1100 ltr is still fully rely on the power of gravitaion
 4. There are no Automatic control installed in each water tank

Water Instalation Plan - Desa Tista, Br.Ancut, Karangasem · Bali

- NB
- 1 Water tank with capacity 1100 ltr will be changed to water tank with 2200 ltr capacity
 - 2 Water pipe 3/4" a long 500 mtr will be changed become 1.5"
 - 3 Water pump will be installed to distributed the water from the water tank 2200 ltr to the ground water tank 5000 ltr (not fully rely on the power of gravitation)
 - 4 Automatic control will be installed in each water tank & backup with manual control as well

The total population of Banjar Ancut, Tista Village, Abang District of Karangasem Regency is 111 families with 275 people in total and most of them are poor in economy field. Clean water supply is one of the major challenge the village is facing currently. The current water supply is not dependable and it is only reachable to 50 householders with inconsistent supply while remaining 61 householders are still having trouble to get the clean water supply. Our project will improve the overall water supply system which includes improvement of the pipe, water reservoir tank, as well as the pump. These will be funded by our UMD fund, while the work will be carried by the village community.

B. BASIC NEEDS – COOKINGWARE AND UTENSILS

The cooking process is using poor pans and pots and lack of hygiene, therefore we plan to replace some of these items for a better day to day living especially in preparing their meals/nutrition.

Items:

- Spoons : 111 dozen
- Frying spatula : 111 pcs
- Plates : 56 dozen
- Glass : 56 dozen
- Frying Pan : 111 pcs
- Pans : 111 pcs
- Rice Spoons/Sup : 111 pcs
- Foldable mattress : 111 pcs (dacron) size 120 x 200
- Water Bucket 130 ltr : 111 pcs – as individual family’s water storage from the main source

C. FARMING - MACHINERY AND TOOLS

In the view of helping the community in their crops, we plan to provide some basic tools and machinery.

- Farming boots : 61 pairs
- Hand hoes : 111 pcs
- Hand plough tractor : 1 unit
- Chain saw machine : 1 unit

D. SPIRITUAL NEEDS - TEMPLE SUPPLIES

- 100 meters of Wastra
- 58 pcs of Umbul - umbul
- 100 meters of Ider - ider
- 100 meters Sabuk
- 40 pcs Tedung

The above are to be used for ceremonies in the Pura Desa or Banjar there are in Ancut village, Karangasem.

E. OTHERS

- 111 pcs Blankets
- 111 pcs Sarong / Batik Cloths
- 50 pairs Slippers
- 111 pcs UMD Polo Shirt

Tista village is about 90km (3 hours' drive) from U Paasha Seminyak towards North East. The coordinate is at 8.22'33.99" S and 115.36'42.77" E. In this map, north is at top side.

Mount Serayu is seen behind Tista village. In this map, north is at the left side.
