# WELLNESS EXCLUSIVE AT FALKENSTEINER

---

“*Acqua pura*” is Italian and stands for “*pure water*”, and in the Acquapura SPA wellness world of the Falkensteiner Hotels & Residences, water plays a very important role. It is the elixir of life that is capable of unexpected things. It stimulates blood flow, activates the metabolism and ensures well-being.

Spacious pools, inspiring sauna areas, a wide array of treatments and much more create the proper atmosphere in the Acquapura SPA for *relaxation, enjoyment, happiness, health and vitality*.

In order for us to feel strong and healthy, our cells need to receive the optimal supply of water, nutrients and air. Our productivity is also controlled by our biorhythm, or internal clock, which determines whether we are awake or asleep, active or tired. These phases are reflected not only in our daily lives but also in the four seasons.

Our wellness treatments are designed precisely around this and help you to find your natural biorhythm:

ACQUAPURA  
SPA

-  *energising and revitalising*
-  *nourishing*
-  *calming and relaxing*
-  *balancing and harmonising*
-  *clear and pure*

# HOW ACQUAPURA WORKS

## REDISCOVER YOURSELF

Nowadays people have forgotten how to live in harmony with nature. But just like the natural cycle of the seasons, the human biorhythm is attuned to the ups and downs of nature. The demands of everyday life do not take this into account, but it is impossible to fight against it forever. The result is stress, exhaustion and a general sense of malaise.

We will help you to find your rhythmic balance and in that way to rediscover yourself: You can decide if you need revitalization, nourishment, relaxation or strength.

We will be happy to provide you with advice for designing our personalized wellness programme.
