# THE ACQUAPURA PRINCIPLE

## REDISCOVER

*yourself!*

Modern people have forgotten how to live in harmony with nature. However, just like the natural change of seasons, the human biorhythm is governed by the ups and downs of nature. The challenges of our daily lives have no regard for that. But we cannot struggle against it on a long-term basis. The consequences are stress, fatigue and general discomfort. We can help you rediscover yourself by finding your rhythmical balance. You decide whether you would like to revitalise, cultivate, relax, or recharge. We will gladly advice on how to plan your own individual wellness programme.

clear and clean

This is the Acquapura symbol that means »pure water«.

In civilised society, people live at a constant and consistently fast pace.
