

Holiday in Brandenburg

A lakeside wonderland: Precise Resort Werder am Schwielowsee

Surrounded by nature and lakes

Relaxation as far as the eye can see: the Precise Resort Werder am Schwielowsee enjoys a lakefront setting close to the cultural city of Potsdam and the metropolis of Berlin. Its unique location at the heart of the picturesque Havel landscape with its forests and lakes is the perfect invitation for long walks in nature. The hotel's private marina, with a total of 55 moorings, is a real highlight.

A warm welcome on the water

127 rooms and suites, 20 holiday apartments and eight stilt houses promise comfort and quality with design inspired by the historic Caribbean architectural style of the 16th century. Complemented with maritime moments, the style conveys a sense of open space, individuality and luxury. From their balcony or terrace, guests can enjoy a breathtaking view of the far-reaching countryside or the lake. The stylish timber-built Key West style holiday apartments offer plenty of space for the whole family or for a holiday with friends. Each cottage comprises two separate apartments with up to three bedrooms. Dreaming of your own lakeside holiday home? These exclusive stilt houses offer the perfect get-away.

Holidays for all the family

As one of the most diverse family hotels in Brandenburg, the Precise Resort Werder extends a warm welcome to junior guests. The Kids' Club, with free childcare for children up to the age of 11, promises plenty of fun and entertainment. As well as games, the combined adventure programme includes excursions out into nature and sporting activities. Teens can gather in the Cyber Café, immersing themselves in virtual video game adventures with people of the same age. The dog-friendly hotel also welcomes four-legged friends. Dogs are, generally, permitted in each room category. Out of consideration for other guests, pets must be kept on a leash on the resort premises. Pets are not permitted in the restaurant or in the spa and pool area.

A culinary delight

The resort is one of the region's leading gastronomic go-to destinations. The culinary focus is on offering a wide selection of superlative seasonal dishes throughout the year. In addition to gourmet delights, the Seapoint restaurant and its terrace offer a unique ambience with views over the water. To round off the evening in style, the Havana Bar serves delicious cocktails in a relaxed Caribbean atmosphere.

Sport and activities

The woodland surroundings are a paradise for all kinds of sporting opportunities in the heart of nature, such as hiking, jogging or cycling. During the summer months, the resort also operates a cycle hire service. Yacht and boat owners can enjoy premium comfort at the hotel's own harbour: the 1.50-metre-wide walkways make boarding and disembarking easy and safe; water and electricity connections are included. From here, guests can embark on boat trips across Lake Schwielowsee, Lake Glindower and Lake Tempeliner. No boat of your own? No problem: the hotel provides a boat hire service. From May to October, there's a choice of rowing, cabin and pontoon boats as well as sports and motor boats. Additional water sports such as sailing and canoeing are provided by third-party operators.

Pool and sauna facilities

The 1,500 m² wellness and spa area is a place of relaxation where guests can leave the everyday at the door. In the winter, guests can bathe in 28 degrees in the 11-metre indoor pool with massage jets. When the weather is warmer, it's not just young guests diving into the 20 metre solar-heated outdoor pool. Sauna fans will love the bio sauna, steam bath and Finnish sauna. The sauna area is also equipped with two sensory showers, a sauna bucket, Kneipp water therapy affusions and three individually adjustable showers.

Spa and wellness

The impressive wellness promises a high-class ambience and peaceful atmosphere. From the Cleopatra bath to the evening primrose oil wrap: the professional therapists offer massages, body and facial treatments for individual relaxation. Cosmetic treatments pursue the goal of a "skin happiness" by using vegan active cosmetic ingredients from Vinoble Cosmetics. The spa experts also have special packages for children in the programme, such as a chocolate wrap in a hammock. In the side wing next to the spa is a fitness studio equipped with state-of-the-art equipment and a training area.

Weddings

The resort's wonderful lakeside pavilion is the perfect venue for couples to tie the knot in the open air with a view of the lake. Afterwards, the wedding party can enjoy an exquisite festive menu in the Belle Etage with panoramic views over the lake and the parkland. What better way to conclude all the celebrations than to spend the night in the tower room. Our on-site events team will help with the planning and coordination of your wedding ahead of the big day, arrange live music, wedding shuttle transfers to the hotel and flowers, as well as organising the wedding photographer, table decorations and all the timings.

Events

Given its stunning location and diverse facilities, the resort is also an exceptional option for conferences, small congresses, board meetings and private parties. There are a number of impressive areas to choose from: unique interior rooms, extensive gardens and well equipped, spacious banqueting rooms. The committed events team provides support in every aspect of delivering a successful and unforgettable occasion.
