The shows put on by the resort's entertainment teams provide an entertaining attraction for the whole family. Young and old alike can enjoy theatre performances and music shows at these evening events.

### **Golf course and school:**

The Spanish designer Alvaro Arana created the 36-hole golf course in line with his concept of preserving the environment. Golfers can thus enjoy the delightful surroundings with pine and orange groves and wetlands, giving way to spectacular views of the Atlantic. The North Course is considered one of the top 1,000 courses in Europe thanks to its compelling and innovative design. The 18-hole South Course is perfect for beginners and players with a handicap. With its mild temperatures and over 300 days of sunshine annually, the resort is the perfect year-round destination for golf lovers. Those who wish can take lessons at the golf school directly from the golf pro, the Scottish champion and manager of the School Club, Peter Ballingall. He is one of the best-known golf pros in Europe and has written several books about the sport.

**Activities:**

In El Rompido, holidaymakers can soak up the sun in complete peace, and enjoy a guaranteed hit of a beach holiday in Andalusia with all the family.
