

# Pillow Laboratory

Our guests spend 6 to 10 hours per day resting on a pillow. As a primary point of contact, we endeavoured to improve the hygiene standards of our pillows through scientific research into material choices and cleaning processes.

With this goal in mind, One Farrer Hotel developed the Pillow Lab. It is equipped with an industry-leading Ultraviolet-C (UVC) Chamber for deep disinfection of guest room pillows between use - a safe and effective method that removes all pathogens, natural microbiota, molds, and yeasts.

The UVC Chamber accommodates a maximum of 52 pillows per load. The pillows are immersed in the sterile UVC environment by staff in personal protective equipment to ensure minimal contamination. Safety measures including protective eyewear and motion detectors ensure that there is no risk of harmful exposure to UVC rays.

What began as a labour of necessity to ensure the health and safety of our guests soon also unveiled opportunities to enhance comfort and quality of sleep. As such, we have specially curated a menu of pillows to suit the most exacting preferences in firmness and sleeping posture. Try our selection during your stay and speak to our staff should you like to make a purchase.

## Epitex Pillows

### Epitex Exceed Down Hotel Collection Pillow

Available as standard in all guestrooms, the Exceed Down pillow is perfect for good air retaining abilities and heat preservation. Filled with an artificial feather structure, one will feel the limitless comfort of down feathers, while staying away from allergies. The pillow is fully treated for antibacterial protection and effective in controlling dust mites and fungus growth.

1,400g - \$49.90 nett

### Epitex Bamboo Charcoal Neck Support Pillow

Offering the combined benefits of comfort and hygiene, activated bamboo charcoal fibre is an environmentally functional material which has excellent absorption properties. The material is hypoallergenic, naturally dust mite resistant and effective against odours. Available in regular or memory contour for added support and firmness.

1,100g - \$59.90 nett

### Epitex Bamboo Charcoal Memory Contour Pillow

This pillow offers the comfort and neck support of a memory foam pillow while incorporating the hygienic qualities of activated bamboo charcoal. The contoured memory foam is designed to give support to your head and neck while Tencel fabric with 3D mesh dissipates heat for improved cooling.

MSRP - \$59.90 nett

### Epitex Brace Support Pillow

This uniquely shaped pillow is made from dermatological grade elastomer polymers (silicone) that is moulded into a unique grid-like structure giving one unparalleled support, while absorbing pressure off the head and neck. The vented grid design allows air to flow freely throughout the pillow, giving one a cooling and comfortable night's sleep. Compared to fibre pillows, it is also easier to clean.

MSRP - \$129.00 nett

### Epitex Arctic Cooling Memory Pillow

Provides cooling comfort throughout the night with breathable netting that allows better ventilation and quickly disperses heat. Let the high-density memory foam cradle your tired neck and head giving you a restful sleep.

MSRP - \$69.90 nett

### Epitex Luxia Premium Down Pillow

Made with lightweight goose feathers, our quality down pillows boasts impressive fill power and insulation. Down pillows offer an exceptionally plush feel for those who prefer a sinking effect over firm support.

1,350g - \$169.00 nett

## Other Pillows

### Four Star Chiro-Contour Memory Foam Pillow

Provides anatomical support in combination with pressure-relieving materials. The contour of the pillow gently cradles the curve of your head and neck, providing improved muscle relaxation and blood circulation. Gel-infused memory foam absorbs body heat and disperses it through ventilation holes, creating a cool sleeping surface.

MSRP - \$49.90 nett

### Buckwheat Pillow

Made from hulls of buckwheat, this pillow provides excellent support for the head and neck while enhancing natural air circulation and maintaining an ideal temperature for peaceful sleep.

MSRP - \$39.90 nett

## Pillow Sanitization

Have your pillows sanitized in the Pillow Lab's UVC Chamber without the use of water or chemicals.
