COMMENTARY

182,174 4,392,668 2,480,830 2,112,113

- (203,126)

During the first half of 2018, the foreign leisure tourism segment in East Africa witnessed a slow but encouraging growth in business levels compared to last year. The Company's (TPS Eastern Africa PLC/the Group) diversified portfolio in East Africa recorded satisfactory growth in the corporate and domestic leisure segments, particularly during the second quarter of 2018 after the political environment in Kenya stabilised. The commencement of direct flights by Kenya Airways to/from New York from October 2018, resumption of Air France flights to Nairobi and the granting of additional flight frequency of Ethiopian Airlines to Mombasa from July 2018 is encouraging. Based on the feedback received from our suppliers of business in traditional and new international source markets, there is increased interest in selling destination East Africa. Current forecasts indicate satisfactory outlook during the second half of 2018 for Serena Kenya, Serena Tanzania and Serena Uganda.

The new and refurbished facilities at Kampala Serena Hotel and Dar es Salaam Serena Hotel that were completed in the course of 2017 have contributed positively during the first half of 2018. The first phase of the redevelopment of Nairobi Serena Hotel will be handed over in August 2018 and consequently the Board is optimistic that the last quarter of 2018 will record improved performance following completion of the ball room, new restaurant and an executive lounge which will generate additional revenue. The award of a management contract in the Democratic Republic of Congo (DRC) will further strengthen the Serena brand with the opening of Goma Serena Hotel in early 2019.

Given the seasonal nature of the tourism industry in East Africa, the results for the first half of 2018 should not be taken as a basis for forecasting a full year's result. For the six month period, TPS Eastern Africa PLC recorded a lower Loss After Tax of KShs. 168.6 million as compared to KShs. 188.8 million in the previous year. The results for the period have been impacted by lower than expected sales from the foreign leisure tourism arrivals in Kenya during the first quarter and the unexpected increase in energy and other operating costs. Notwithstanding the challenging business environment, the Board and Management looks at the future with optimism and express their appreciation to the East African governments for facilitating the continuous resource allocation required to improve the business environment for destination East Africa.

The Group continues to implement appropriate Human Resource Management practices and sound Corporate Social Responsibility (CSR) programs that complement its long-term business strategy. The CSR programs remain fully aligned to achieving the Sustainable Development Goals (SDGs) set out by the United Nations Development Programme. Our sustainable business practices continue to respond to the needs of eco-tourism, environmental conservation, reafforestation, education, public health and essentially community development.

In line with the Company's policy, the Board of Directors does not recommend the declaration of an interim dividend.

By Order of the Board

Dominic Ng'ang'a COMPANY SECRETARY 14 August, 2018
