- The fire exits on your floor are clearly marked
- Count the number of doorways between your door and the nearest emergency exit
- Check the location of the fire extinguisher/hose and alarm in the corridor of your floor

- Please familiarise yourself with the air-conditioning controls

If you find a fire:

- Activate the nearest fire alarm (break glass panel)
- Call Fullerton Express using the button on your in-room phone
- Leave the building by using the exit staircase. Close the door(s) against the fire. Do not use the elevators and please take your room keys with you

If a fire starts in your room:

- Evacuate your room immediately. Take your room key with you

- Activate a fire alarm via a break glass panel and notify your immediate neighbours
- Call Fullerton Express using the button on the nearest in-room phone and walk to safety via the emergency exit
- Do not use the elevator
- Do not attempt to jump out of the building

If the fire alarm is activated:

- Be alert and attentive to the messages being broadcast
- In the event where there is a need for evacuation, a second alarm will be triggered. It will be followed by a broadcast of the evacuation message

If evacuating upon hearing a fire alarm:

- Take your room key and move cautiously
- Feel the door handle with the back of your hand. If the door handle is hot or abnormally warm, do not open it

- If there is smoke in the corridor, stay as low as possible
- Crawl on hands and knees if necessary to the nearest emergency exit
- Do not use the elevator
